

Browser Support for GLHC Selected Products

GLHC currently supports the following Browsers:

ProductVersion	Chrome	Firefox	Internet Explorer	Safari
Orders Lab Radiology	Most recent version	Most recent version	IE 8 - 11	Most recent version
VIPR 5.6.x*	Most recent version	Most recent version	IE 8 - 11	Most recent version
iNexx - Command Center ADT Direct iNBox (Results) Patient Updates Referrals**	Most recent version	Most recent version	IE 8 - 11	Most recent version
Patient Care Documents	Most recent version	Most recent version	IE 8 - 11	Most recent version

Supported Browser Notes:

1. Medicity does not code products to a browser's compatibility mode.
2. Microsoft does not allow IE 11 to be downloaded with Windows 8.
3. Chrome, Firefox and Safari auto push browser updates. Medicity tests on the most current version.
4. *IE7 for Windows XP is still supported when using VIPR, although not recommended
5. * Recommendation for sites with lengthy questions in the Referrals application: Use IE 10, the only IE version that wraps the questions allowing you to see the answers without scrolling over.
